SUBJECT INDEX

[^{14}C] penitrem mycotoxins in sheep bile, Excretion and transformation of 199
5-OH thiabendazole in equine plasma, HPLC determination and pharmacokinetics of thiabendazole and its major metabolite 13

Acid alpha naphthyl acetate esterase reacting lymphocytes in the peripheral blood of chickens challenged with Marek's disease after vaccination with three different vaccines 92
Actinobacillus (*Haemophilus*) *pleuropneumoniae*, Binding patterns of five monoclonal antibodies to 410
Aeromonas salmonicida by enzyme-linked immunosorbent assay using biotin-avidin system, Detection of fish antibody against protein antigen of 78
Afferent innervation of the face of sheep and goats, The 113
African buffaloes (*Syncerus caffer*), Isolation of *Theileria parva lawrencei*-infected lymphoid cell lines from free-ranging 124
African swine fever virus by *Stomoxys calcitrans*, Mechanical transmission of capripox virus and 109
Agar gel precipitation and counter-immunoelectrophoresis, Detection of brucella antigen in bovine fetal stomach contents by 132
Agarose, Influence of arachidonic acid metabolites in vitro and in uterine washings on migration of equine neutrophils under 203
Albendazole administered by an intraruminal pulse release electronic device in cattle, Pharmacokinetics of 284
Albumin across the gut of cattle ticks feeding on normal or vaccinated cattle, *Boophilus microplus*: passage of bovine immunoglobulins and 287
Amount and distribution of vestibular-associated lymphoid tissue in calves and adult cows 239
Antibiotics in chickens during induced fatty liver, Pharmacokinetic changes of several 49
Arachidonic acid metabolites in vitro and in uterine washings on migration of equine neutrophils under agarose, Influence of 203
Attempted induction of local Shwartzman reaction in the chicken 405
Atypical rotavirus in chickens in Argentina 130

β-endorphin/β-lipotrophin and cortisol, A comparison of the effects of electroimmobilisation and, or, shearing procedures on ovine plasma concentrations of 97
Babesia bigemina, Use of long-acting oxytetracycline in the immunisation of cattle against *Babesia bovis* and 64
Babesia bovis and *B bigemina*, Use of long-acting oxytetracycline in the immunisation of cattle against 64
Babesia bovis or *B ovis*, Ovine babesiosis: induction of a protective immune response with crude extracts of either 401
Babesia motasi (Wales), *Theileria recondita* (Wales) and *Cytocetes phagocytophila* infection in sheep, Serodiagnosis of 104
Babesia ovis, Ovine babesiosis: induction of a protective immune response with crude extracts of either *Babesia bovis* or 401
Babesiosis: induction of a protective immune response with crude extracts of either *Babesia bovis* or *B ovis*, Ovine 401
Benzimidazole resistance of nematodes in sheep in the Netherlands, Prevalence of 18
Bile acids in the plasma of sheep with liver damage, Changes in the concentrations of 243
Binding patterns of five monoclonal antibodies to *Actinobacillus* (*Haemophilus*) *pleuropneumoniae* 410
Biochemical investigations of cardiomyopathy in the dog 1
Biotin-avidin system, Detection of fish antibody against protein antigen of *Aeromonas salmonicida* by enzyme-linked immunosorbent assay using 78
Boophilus microplus: passage of bovine immunoglobulins and albumin across the gut of cattle ticks feeding on normal or vaccinated cattle 287
Border disease on a single farm: clinical and pathological description of affected sheep, Variable nature of 22
Border disease on a single farm: the infection status of infected sheep, Variable nature of 28
Bronchitis: pilot studies using an oxfendazole pulse release bolus, Interactions between chemoprophylaxis and immunity to bovine parasitic gastroenteritis and 273
Brucella antigen in bovine fetal stomach contents by agar gel precipitation and counter-immunoelectrophoresis, Detection of 132

Calcium and magnesium intakes and feeding level during the dry period on bone resorption in dairy cows at parturition, Effects of 7
Campylobacter infection in gnotobiotic calves and lambs, Enteric 72
Capripox virus and African swine fever virus by *Stomoxys calcitrans*, Mechanical transmission of 109
Cardiomyopathy in the dog, Biochemical investigations of 1
Cephalosporins in calves, Clinical pharmacokinetics of five oral 166

Cervix uteri in relation to tensile strength at parturition, Scanning electron microscopy of the wall of the ovine 36
Changes in the concentrations of bile acids in the plasma of sheep with liver damage 243
Changing morphology of *Eperythrozoon ovis* 88
Chemotactic agents on the locomotion of equine polymorphonuclear and mononuclear leucocytes, Influence of 55
Chlamydia psittaci systemic infection, T cell mediated and humoral immunity in a mouse 59
Clinical pharmacokinetics of five oral cephalosporins in calves 166
Clostridium botulinum type C cultures and culture filtrates, Oral dosing of mice with 134
Colostral immunoglobulins in the newborn calf, Computer model of the absorption and distribution of 291
Comparison of the effects of electroimmobilisation and, or, shearing procedures on ovine plasma concentrations of β-endorphin/β-lipotrophin and cortisol, A 97
Computer model of the absorption and distribution of colostral immunoglobulins in the newborn calf 291
Cortisol, A comparison of the effects of electroimmobilisation and, or, shearing procedures on ovine plasma concentrations of β-endorphin/β-lipotrophin and 97
Counter-immunoelectrophoresis, Detection of brucella antigen in bovine fetal stomach contents by agar gel precipitation and 132
Cryptosporidium in serum and faeces from experimentally infected calves, Measurement of class specific antibody against 264
Cytoecetes phagocytophila infection in sheep, Serodiagnosis of *Babesia motasi* (Wales), *Theileria recondita* (Wales) and 104

Definition of 15 equine leucocyte antigens 191
Detection and typing of foot-and-mouth disease virus by enzyme-linked immunosorbent assay: a sensitive, rapid and reliable technique for primary diagnosis 225
Detection of antibodies to *Eperythrozoon ovis* by the use of an enzyme-linked immunosorbent assay 249
Detection of brucella antigen in bovine fetal stomach contents by agar gel precipitation and counter-immunoelectrophoresis 132
Detection of fish antibody against protein antigen of *Aeromonas salmonicida* by enzyme-linked immunosorbent assay using biotin-avidin system 78
Detection of immune response in rabbits infested with *Rhipicephalus appendiculatus* and *Rhipicephalus evertsi evertsi* 217
Diagnosis of pseudorabies virus infection in pigs with specific DNA probes 150
Diminazene aceturate therapy and prophylaxis in *Trypanosoma brucei* infections of mice, Effect of tetracycline administration on the efficacy of 173
DNA probes, Diagnosis of pseudorabies virus infection in pigs with specific 150
Dopaminergic disorder in sheep affected by *Tribulus terrestris* staggers, A novel nigrostriatal 347
Duck hepatitis virus and their potential as vaccines, Triple plaque purified strains of 44
Duck hepatitis virus vaccine, Fractionation of neutralising antibodies in serum of ducklings vaccinated with live 276

Echinococcus granulosus in sheep sera, Use of two polysaccharide antigens in ELISA for the detection of antibodies to 257
Effect of sodium cromoglycate on the response to *Ostertagia circumcincta* in adult sheep 157
Effect of tetracycline administration on the efficacy of diminazene aceturate therapy and prophylaxis in *Trypanosoma brucei* infections of mice 173
Effects of a specific thromboxane synthetase inhibitor in equine endotoxaemia 137
Effects of calcium and magnesium intakes and feeding level during the dry period on bone resorption in dairy cows at parturition 7
Effects of *Eperythrozoon ovis* in sheep, The 85
Electroimmobilisation and, or, shearing procedures on ovine plasma concentrations of β-endorphin/β-lipotrophin and cortisol, A comparison of the effects of 97
Endotoxaemia, Effects of a specific thromboxane synthetase inhibitor in equine 137
Enteric campylobacter infection in gnotobiotic calves and lambs 72
Enzyme-linked immunosorbent assay for the detection of antibodies to avian reticuloendotheliosis virus using the whole cell antigen 403
Enzyme-linked immunosorbent assay for the detection of antibodies to the sheep scab mite *Psoroptes ovis* 34
Eperythrozoon ovis by the use of an enzyme-linked immunosorbent assay, Detection of antibodies to 249
Eperythrozoon ovis, Changing morphology of 88
Eperythrozoon ovis in sheep, The effects of 85
Epithelial cells from the lungs of sheep with jaagsiekte, Three-step procedure for isolation of 407
Erythrocytes, Haemagglutination patterns of the different variants of *Escherichia coli* K88 antigen with porcine, bovine, guinea pig, chicken, ovine and equine 122
Escherichia coli enterotoxigenic for piglets, Production and evaluation of monoclonal antibodies directed against the K88 fimbrial adhesin produced by 233
Escherichia coli K88 antigen with porcine, bovine, guinea pig, chicken, ovine and equine erythrocytes, Haemagglutination patterns of the different variants of 122
Evaluation of growth of avian mycoplasmas on bile salt agar and in bile broth 188
Excretion and transformation of [^{14}C] penitrem mycotoxins in sheep bile 199
Experimental myopathy in vitamin E- and selenium-depleted calves with and without added dietary polyunsaturated fatty acids as a model for nutritional degenerative myopathy in ruminant cattle 384
Experimental systems which modify and simulate rapeseed-induced liver haemorrhages in in-lay hens 351

Fascioliasis in sheep, Pharmacokinetics of sulphobromophthalein, lidocaine and indocyanine green in the case of subclinical 327
Follicle and fibre characteristics of Indian pashmina goats 398
Foot-and-mouth disease virus by enzyme-linked immunosorbent assay: a sensitive, rapid and reliable technique

for primary diagnosis, Detection and typing of 225
Foot-and-mouth disease virus: minimal doses with O_1 and SAT 2 strains, Infection of cattle by airborne 339
Fractionation and characterisation of the cysticercus of *Taenia solium* 395
Fractionation of neutralising antibodies in serum of ducklings vaccinated with live duck hepatitis virus vaccine 276

Gastroenteritis and bronchitis: pilot studies using an oxfendazole pulse release bolus, Interactions between chemoprophylaxis and immunity to bovine parasitic 273
Gastroenteritis in lambs subject to mixed nematode infections, A model for predicting parasitic 67
Glossina morsitans centralis, Therapeutic and prophylactic activity of isometamidium chloride in Boran cattle against *Trypanosoma vivax* transmitted by 268
Glucosinolates in the causation of liver haemorrhages in laying hens fed water-extracted or heat-treated rapeseed cakes, Role of 313
Group A rotavirus excretion patterns in naturally infected pigs 297

Haemagglutination patterns of the different variants of *Escherichia coli* K88 antigen with porcine, bovine, guinea pig, chicken, ovine and equine erythrocytes 122
Haematology and morphological changes in young broiler chicks with experimentally induced hypoxia 331
Haemolysin activity of *Treponema hyodysenteriae* in swine and human sera, Inhibitors of the 413
HPLC determination and pharmacokinetics of thiabendazole and its major metabolite 5-OH thiabendazole in equine plasma 13
Humoral antibody response of rabbits to *Rhipicephalus appendiculatus* infestation 271
Hyperadrenocorticism, Systematic availability of o,p′-DDD in normal dogs, fasted and fed, and in dogs with 160
Hypoxia, Haematology and morphological changes in young broiler chicks with experimentally induced 331

Immunoglobulins and albumin across the gut of cattle ticks feeding on normal or vaccinated cattle, *Boophilus microplus*: passage of bovine 287
Immunoglobulins in the newborn calf, Computer model of the absorption and distribution of colostral 291
Indocyanine green in the case of subclinical fascioliasis in sheep, Pharmacokinetics of sulphobromophthalein, lidocaine and 327
Infection of cattle by airborne foot-and-mouth disease virus: minimal doses with O_1 and SAT 2 strains 339
Influence of arachidonic acid metabolites in vitro and in uterine washings on migration of equine neutrophils under agarose 203
Influence of chemotactic agents on the locomotion of equine polymorphonuclear and mononuclear leucocytes 55
Influenza A viruses from migratory waterfowl in San-in District, western Japan in the winter of 1983-1984, Isolation of 177
Inhibitors of the haemolysin activity of *Treponema hyodysenteriae* in swine and human sera 413
Interactions between chemoprophylaxis and immunity to bovine parasitic gastroenteritis and bronchitis: pilot studies using an oxfendazole pulse release bolus 273
Interactions between pipecuronium and suxamethonium in the dog 308
Isolation of influenza A viruses from migratory waterfowl in San-in District, western Japan in the winter of 1983-1984 177
Isolation of *Theileria parva lawrencei*-infected lymphoid cell lines from free-ranging African buffaloes (*Syncerus caffer*) 124
Isometamidium chloride in Boran cattle against *Trypanosoma vivax* transmitted by *Glossina morsitans centralis*, Therapeutic and prophylactic activity of 268
Isotype-specific ELISAs for the detection of antibodies to bovine respiratory syncytial virus 180
Ixodes ricinus, Resistance of sheep to laboratory infestations of the tick 266

Jaagsiekte, Three-step procedure for isolation of epithelial cells from the lungs of sheep with 407

K88 antigen with porcine, bovine, guinea pig, chicken, ovine and equine erythrocytes, Haemagglutination patterns of the different variants of *Escherichia coli* 122
K88 fimbrial adhesin produced by *Escherichia coli* enterotoxigenic for piglets, Production and evaluation of monoclonal antibodies directed against the 233

Lactate dehydrogenase and its isoenzymes in the tissues and sera of clinically normal dogs 222
Leucocyte antigens, Definition of 15 equine 191
Leucocytes, Influence of chemotactic agents on the locomotion of equine polymorphonuclear and mononuclear 55
Lidocaine and indocyanine green in the case of subclinical fascioliasis in sheep, Pharmacokinetics of sulphobromophthalein 327
Liver damage, Changes in the concentrations of bile acids in the plasma of sheep with 243
Liver haemorrhages in in-lay hens, Experimental systems which modify and simulate rapeseed-induced 351
Liver haemorrhages in laying hens fed water-extracted or heat-treated rapeseed cakes, Role of glucosinolates in the causation of 313
Liver, Pharmacokinetic changes of several antibiotics in chickens during induced fatty 49

Magnesium intakes and feeding level during the dry period on bone resorption in dairy cows at parturition, Effects of calcium and 7
Marek's disease after vaccination with three different vaccines, Acid alpha naphthyl acetate esterase reacting lymphocytes in the peripheral blood of chickens challenged with 92
Measurement of class specific antibody against cryptosporidium in serum and faeces from experimentally infected calves 264
Mechanical transmission of capripox virus and African swine fever virus by *Stomoxys calcitrans* 109
Model for predicting parasitic gastroenteritis in lambs subject to mixed nematode infections, A 67
Mucosal IgA production and lymph cell traffic following prolonged low level infections of *Ostertagia circumcincta* in sheep 320

Multiple forms of bovine pepsinogen: isolation and identification in serum from calves with ostertagiasis 279
Mycoplasmas on bile salt agar and in bile broth, Evaluation of growth of avian 188
Myopathy in vitamin E- and selenium-depleted calves with and without added dietary polyunsaturated fatty acids as a model for nutritional degenerative myopathy in ruminant cattle, Experimental 384

Nematode infections, A model for predicting parasitic gastroenteritis in lambs subject to mixed 67
Nematodes in sheep in the Netherlands, Prevalence of benzimidazole resistance of 18
Neutrophils under agarose, Influence of arachidonic acid metabolites in vitro and in uterine washings on migration of equine 203
Novel nigrostriatal dopaminergic disorder in sheep affected by *Tribulus terrestris* staggers, A 347

Observations on the neuromuscular blocking action of pipecuronium in the dog 101
Ochratoxin, Skeletal changes in broiler chicks and turkey poults fed diets containing 301
o,p'-DDD in normal dogs, fasted and fed, and in dogs with hyperadrenocorticism, Systematic availability of 160
Oral dosing of mice with *Clostridium botulinum* type C cultures and culture filtrates 134
Ostertagia circumcincta in adult sheep, Effect of sodium cromoglycate on the response to 157
Ostertagia circumcincta in sheep, Mucosal IgA production and lymph cell traffic following prolonged low level infections of 320
Ostertagiasis, Multiple forms of bovine pepsinogen: isolation and identification in serum from calves with 279
Ovine babesiosis: induction of a protective immune response with crude extracts of either *Babesia bovis* or *B ovis* 401
Oxfendazole pulse release bolus, Interactions between chemoprophylaxis and immunity to bovine parasitic gastroenteritis and bronchitis: pilot studies using an 273
Oxytetracycline in the immunisation of cattle against *Babesia bovis* and *B bigemina*, Use of long-acting 64

Pashmina goats, Follicle and fibre characteristics of Indian 398
Pepsinogen: isolation and identification in serum from calves with ostertagiasis, Multiple forms of bovine 279
Pharmacokinetic changes of several antibiotics in chickens during induced fatty liver 49
Pharmacokinetics of albendazole administered by an intraruminal pulse release electronic device in cattle 284
Pharmacokinetics of sulphobromophthalein, lidocaine and indocyanine green in the case of subclinical fascioliasis in sheep 327
Pharmacokinetics of three sulphonamides in ruminant and preruminant kids 208
Phenothiazine given in two successive years to first-season calves on a common area of pasture, Prophylaxis of trichostrongylid infection afforded by low-dose 143
Pipecuronium and suxamethonium in the dog, Interactions between 308
Pipecuronium in the dog, Observations on the neuromuscular blocking action of 101
Polysaccharide antigens in ELISA for the detection of antibodies to *Echinococcus granulosus* in sheep sera, Use of two 257
Preparation of a bovine monoclonal antibody to testosterone by interspecies fusion 253
Prevalence of benzimidazole resistance of nematodes in sheep in the Netherlands 18
Production and evaluation of monoclonal antibodies directed against the K88 fimbrial adhesin produced by *Escherichia coli* enterotoxigenic for piglets 233
Prophylaxis of trichostrongylid infection afforded by low-dose phenothiazine given in two successive years to first-season calves on a common area of pasture 143
Proteinuria in the dog: a pathomorphological study of 51 proteinuric dogs 367
Pseudorabies virus infection in pigs with specific DNA probes, Diagnosis of 150
Psoroptes ovis, Enzyme-linked immunosorbent assay for the detection of antibodies to the sheep scab mite 34
Pulse release electronic device in cattle, Pharmacokinetics of albendazole administered by an intraruminal 284

Rapeseed cakes, Role of glucosinolates in the causation of liver haemorrhages in laying hens fed water-extracted or heat-treated 313
Rapeseed-induced liver haemorrhages in in-lay hens, Experimental systems which modify and simulate 351
Resistance of sheep to laboratory infestations of the tick, *Ixodes ricinus* 266
Respiratory syncytial virus, Isotype specific ELISAs for the detection of antibodies to bovine 180
Reticuloendotheliosis virus using the whole cell antigen, An enzyme-linked immunosorbent assay for the detection of antibodies to avian 403
Rhipicephalus appendiculatus and *Rhipicephalus evertsi evertsi*, Detection of immune response in rabbits infested with 217
Rhipicephalus appendiculatus infestation, Humoral antibody response of rabbits to 271
Rhipicephalus evertsi evertsi, Detection of immune response in rabbits infested with *Rhipicephalus appendiculatus* and 217
Role of glucosinolates in the causation of liver haemorrhages in laying hens fed water-extracted or heat-treated rapeseed cakes 313
Rotavirus excretion patterns in naturally infected pigs, Group A 297
Rotavirus in chickens in Argentina, Atypical 130

Sarcocystis cruzi infected calves challenged with *Toxoplasma gondii*, Serological responses in 127
Scanning electron microscopy of the wall of the ovine cervix uteri in relation to tensile strength at parturition 36
Seasonal variation in blood biochemistry of long term captive Mediterranean tortoises (*Testudo graeca* and *T hermanni*) 379
Selenium-depleted calves with and without added dietary polyunsaturated fatty acids as a model for nutritional degenerative myopathy in ruminant cattle, Experimental myopathy in vitamin E- and 384
Serodiagnosis of *Babesia motasi* (Wales), *Theileria*

recondita (Wales) and *Cytoecetes phagocytophila* infection in sheep 104
Serological responses in *Sarcocystis cruzi* infected calves challenged with *Toxoplasma gondii* 127
Sheep scab mite *Psoroptes ovis*, Enzyme-linked immunosorbent assay for the detection of antibodies to the 34
Shwartzman reaction in the chicken, Attempted induction of local 405
Skeletal changes in broiler chicks and turkey poults fed diets containing ochratoxin 301
Sodium cromoglycate on the response to *Ostertagia circumcincta* in adult sheep, Effect of 157
Staggers, A novel nigrostriatal dopaminergic disorder in sheep affected by low *Tribulus terrestris* 347
Stomoxys calcitrans, Mechanical transmission of capripox virus and African swine fever virus by 109
Sulphobromophthalein, lidocaine and indocyanine green in the case of subclinical fascioliasis in sheep, Pharmacokinetics of 327
Sulphonamides in ruminant and preruminant kids, Pharmacokinetics of three 208
Suxamethonium in the dog, Interactions between pipecuronium and 308
Syncerus caffer (African buffaloes), Isolation of *Theileria parva lawrencei*-infected lymphoid cell lines from free-ranging 124
Systematic availability of o,p′-DDD in normal dogs, fasted and fed, and in dogs with hyperadrenocorticism 160

T cell mediated and humoral immunity in a mouse *Chlamydia psittaci* systemic infection 59
Taenia solium, Fractionation and characterisation of the cysticercus of 395
Testosterone by interspecies fusion, Preparation of a bovine monoclonal antibody to 253
Testudo graeca and *T hermanni*, Seasonal variation in blood biochemistry of long term captive Mediterranean tortoises 379
Testudo hermanni and *Testudo graeca*, Seasonal variation in blood biochemistry of long term captive Mediterranean tortoises 379
Tetracycline administration on the efficacy of diminazene aceturate therapy and prophylaxis in *Trypanosoma brucei* infections of mice, Effect of 173
Theileria parva lawrencei-infected lymphoic cell lines from free-ranging African buffaloes (*Syncerus caffer*), Isolation of 124
Theileria recondita (Wales) and *Cytoecetes phagocytophila* infection in sheep, Serodiagnosis of *Babesia motasi* (Wales) 104
Therapeutic and prophylactic activity of isometamidium chloride in Boran cattle against *Trypanosoma vivax* transmitted by *Glossina morsitans centralis* 268
Thiabendazole and its major metabolite 5-OH thiabendazole in equine plasma, HPLC determination and pharmacokinetics of 13
Three-step procedure for isolation of epithelial cells from the lungs of sheep with jaagsiekte 407
Thromboxane synthetase inhibitor in equine endotoxaemia, Effects of a specific 137
Tick, *Ixodes ricinus*, Resistance of sheep to laboratory infestations of the 266
Ticks feeding on normal or vaccinated cattle, *Boophilus microplus*: passage of bovine immunoglobins and albumin across the gut of cattle 287
Toxoplasma gondii, Serological responses in *Sarcocystis cruzi* infected calves challenged with 127
Treponema hyodysenteriae in swine and human sera, Inhibitors of the haemolysin activity of 413
Tribulus terrestris staggers, A novel nigrostriatal dopaminergic disorder in sheep affected by 347
Trichostrongylid infection afforded by low-dose phenothiazine given in two successive years to first-season calves on a common area of pasture, Prophylaxis of 143
Triple plaque purified strains of duck hepatitis virus and their potential as vaccines 44
Trypanosoma brucei infections of mice, Effect of tetracycline administration on the efficacy of diminazene aceturate therapy and prophylaxis in 173
Trypanosoma vivax transmitted by *Glossina morsitans centralis*, Therapeutic and prophylactic activity of isometamidium chloride in Boran cattle against 268

Use of long-acting oxytetracycline in the immunisation of cattle against *Babesia bovis* and *B bigemina* 64
Use of two polysaccharide antigens in ELISA for the detection of antibodies to *Echinococcus granulosus* in sheep sera 257

Variable nature of Border disease on a single farm: clinical and pathological description of affected sheep 22
Variable nature of Border disease on a single farm: the infection status of infected sheep 28
Vestibular-associated lymphoid tissue in calves and adult cows, Amount and distribution of 239
Vitamin E- and selenium-depleted calves with and without added dietary polyunsaturated fatty acids as a model for nutritional degenerative myopathy in ruminant cattle, Experimental myopathy in 384
